BY RANKIN & LEVIN.

FRIDAY, JUNE 21st, 1878.

The small grain crop of Burnett county is a decided success this year.

The Burnett Bulletin has been revived by James Kibbee & Co. It has a patent inside.

A Waco firm has orders for 200,000 bushels of wheat. They are buying at 72 to 75 cents per bushel and shipping at the rate of three cars per day.

R. T. Hill retires from the Chief and proposes starting a little Indian of his own, under the shadow of the wigwag of the "big Injun."

The Comanche Chief says John Wesley Hardin goes up for twenty-five years, or a little less than one year for each man he has murdered.

The Round Rock Headlight complains of a want of advertising patronage. It says that not more than one-quarter of the business houses of the town advertise in it.

Gen. B. L. E. BONNEVILLE died recently, at Fort Smith, Ark., aged 96. Gen. B. was the oldest officer on the retired list, having graduated at West Point in 1815.

It is to be called the Greenback Appeal. It will be published by R. T. Hill, at Comanche. We hope Mr. Hill will be able to "scoop up" all the greenbacks he desires.

A Greenback paper is shortly to be established at Georgetown. Allen & Foster are to run the machine. If they succeed in putting any greenbacks into their pockets by the operation we are very much mistaken.

Col. Nuneio, the Mexican officer supposed to have been killed by Escobedo's men, isn't dead at all. The Mexicans, upon ascertaining that United States troops were on their territory, proceeded to get mad. The revolution is a first-class failure.

The Bellville Beacon says Col. D. Landes, of Austin county, will probably be a candidate for Representative from that county. Col. Landes is an old Texan and one of the most prominent men in that county. He would make an able representative.

The Austin Capital asks, "Is there a newspaper in Texas not published in a city?" There is not. Every cross-roads town and every little village and hamlet in the State is a full fledged city with its Mayor, board of alderman, and full set of municipal officials.

Mr. Vick, the florist, of Rochester, N. Y., offers premiums amounting to \$40 in cash, for the best collection of cut flowers, exhibited by an amateur, at the exhibition of the Texas State Horticultural and Pomological Association, at Houston, commencing July 17th.

The Senate committee on Privileges and Elections have reported that the charges that the election of L. F. Grover, a United States Senator from Oregon, was procured by fraud and bribery, reported that the evidence did not sustain the charges against him.

Barron A. Hill, the Greenback apostle, is making speeches on "Absolute Money." He proposes issuing any amount of paper and stamping it; this is "Absolute Money." It is not even proposed to assume "a promise to pay." The paper is to be money itself and not the representative of money.

The Round Rock Headlight hoists the names of Hubbard and Sayers for governor and lieutenant governor, and of Seth Shepard for congress. The Headlight says it believes that Shepard is the choice of the people of its section for congress. The subsequent action of the county convention in instructing for Shepard proves that the Headlight was correct.

PARTY ORGANIZATION.

Tarrant county is Democratic, yet the Fort Worth Standard, in a well written editorial, calls upon the party to effect a thorough organization. In this county, at the last general election, the Republicans were in the majority. It is thought that the Democracy have gained considerable strength since then; but, in order that the full strength of the party may be ascertained, a thorough and effective organization should be undertaken. The late county convention effected a county organization, by the election of an executive committee, consisting of a chairman and one member for each justice's precinct in the county. The members of the executive committee are authorized to call meetings and have the general management of the canvass in the county. It is to be hoped that the preliminary organization of the party in the county having been satisfactorily effected, no time will be lost in bringing about a general organization and enrollment of every man who will vote with us in the fall.

Washington county, although noted for the intelligence, wealth and thrift of her population, has for many years rested under the stigma of having a Senegambian majority. During the last two years we have had many accessions to the white population by the arrival of emigrants in various parts of the county. We are informed by a well posted gentleman, who resides in the Washington precinct, that not less than two hundred white voters have been added during the last two years. That precinct was formerly as dark as Erebus, but the advent of these white voters will shed a ray of light on the precinct that will absolutely astonish the managers of the Senegambian ring. The same change has been going on in the Chappell Hill precinct. A great many of the most intelligent of the colored race are gradually discovering that their white Republican friends are friends only so long as they desire their votes. Again, the majority of the white Republicans in this county are office-seekers and office-holders. An inquiry into their status will reveal the fact that they are Republicans for office, not for principle; principle being the one thing in which they are sadly deficient. This fact is slowly but surely drawing upon the comprehension of the intelligent colored men. If we can effect a thorough enrollment of every one who will affiliate with the Democracy, it will go far towards helping us through the campaign for county officers in the fall. The present outlook is very favorable, and there apparently exists no cogent reason why a full county ticket should not be elected by a handsome majority.

The Denison Herald says a meeting of delegates to the Grayson county Greenbackers was held at that place on Saturday. The delegates represented a voting strength of 1800, so the Herald claims. The Toledo platform was discussed and cussed, and the Austin platform adopted. The delegates may have represented the voting strength claimed, but that there are 1800 Greenbackers in Grayson county we do not believe.

J. J. Groves, the late incumbent of the office of land commissioner of this State died at Austin on Saturday. He was among the old settlers of western Texas. He was a German by birth and a civil engineer by profession. The Galveston News says: "He was widely known over the State, and his death will be lamented by those whose confidence he enjoyed to a high degree." Capt. Rhodes Fisher will probably have charge of the office until election.

DR. LINDERMAN, director of the mint, is charged with buying silver from bonanza men for higher prices than the same could have been obtained in London and shipped here, and other crookedness. The matter has been referred to the president and secretary of the treasury.

Society of Sons of Texas.

This is a new organization founded by the friends of the unity of Texas.

The objects of the society are the preservation of the unity of Texas, and the cultivation of reverence for Texas. The early history, and the intercourse and relations of the members.

It is for the purpose of the society to bring forward the rising generation, as well as of those who are continually seeking their homes within its limits, sectional feeling may in a time of heated contest lay vandal hands on the integrity of our territory. This has more than once been threatened.

Knights of Pythias.

The annual meeting of the Grand Lodge K. of P. took place on Tuesday. The following officers for 1879 were elected: W. R. Savage, Palestine, G. C.; C. T. Roff, Brenham, G. V. C.; J. H. Wilson, Palestine, G. P.; J. E. Wilson, Palestine, G. K. of R. and S.; R. W. McLin, Houston, G. M. Ex.

On Wednesday the following named gentlemen were installed as officers for 1878: J. H. Hobard, Houston, G. P. C.; R. P. Auspau, Dallas, G. C.; W. P. Savage, Palestine, G. V. C.; T. S. Levy, Fort Worth, G. P.; W. M. Aven, Brenham, G. M. Ex.; R. E. Luhn, Brenham, G. K. of R. and S.; J. E. Wilson, Palestine, G. M. A.; J. G. Leigh, Dallas, G. J. G.; C. L. Meyer, Galveston, G. O. G.

Fort Worth was selected as the place of the meeting of the next session, on the third Tuesday in January 1879.

REAL ESTATE transfers recorded for the week ending June 20th, reported by C. F. Herbst of the county clerk's office:

D. C. Giddings, to Christian Meier, 21 3/4 acres, H. Lee league, \$435.

S. R. Sledge, to Mrs. M. A. Lewis, part of lot No. 2, McKutchan's Block, \$225.

C. A. Kieck, to Christian Meier, 72-100 acres, Carrington league, \$20.

J. H. Hughes, to the city of Brenham, 10 feet off his lot for street purposes, \$10.

O. H. P. Garrett, to the city of Brenham, 10 feet off his lot for street purposes, \$10.

Mrs. Mary M. Kurtz, to the city of Brenham, 15 feet off her lot for street purposes, \$30.

W. H. Love and wife, to Jno. J. Smith, 43 93-100 acres, P. Singleton league, \$352.

FISHING.—The fishing in the vicinity of Brenham, that is anywhere within a distance of six or eight miles has been very different this season. Fish are very scarce and hard to catch. A few days ago a gentleman who is fond of fishing was induced to go to Cedar and Nail's creek in the edge of Lee county on an excursion, the inducement being held out that the fishing was very fine; so it was, but the weather being unfavorable and bait scarce success did not crown his efforts. While in that neighborhood he visited a lake in the woods said to be inhabited by two alligators each 15 feet in length. He was told that the alligators could be caught on large hooks baited with pickaninies, but none being handy, the experiment had to be abandoned and the alligators are, presumably, happy yet.

N. A. T.

The Galveston News' perigrinating correspondent, N. A. T., writing from Brenham, gives currency to the story that Shepard withdrew in Giddings' favor at the last congressional convention, upon the condition that Shepard should have office this time. N. A. T. tells a "monkey" story of the subject. The plain meaning of the matter is that, Col. Shepard's name was brought forward by the Hancock men. There was no understanding whatever in regard to the matter Messrs. Giddings and Hancock. Such a thing would be impossible and making the assertion N. A. T. tries to create a prejudice against Shepard that is entirely uncalled for in the premises. N. A. T. is rapidly establishing a first-class reputation for reckless statements.

Good News.

The following special dispatch from New York to the Galveston News explains itself: New York, June 18.—Hon. M. Kopper, president, G. C. and S. F. railroad, has completed negotiations for means to build the road from its present terminus to Belton, provided the counties intervening fulfill their promises of local aids. G. H. Warren, agent for the contractor, leaves to-night for Galveston with the documents for ratification by the company.

With this guarantee of funds for building the road, we think the people along the line should renew their interest in the road, and we doubt not will come liberally to its aid, both by subscriptions and donations. When work is resumed on the line we may confidently look for an increased business. The building of the road through this county will put a large amount of money in circulation and create a home market for a large amount of surplus produce that cannot now be disposed of at any price.

The Race.

On Saturday last eight county conventions were held. From the Galveston News we learn the following particulars:

Bastrop county instructed for Maj. Sayers for lieutenant governor. The delegation is otherwise uninstructed. Throckmorton is supposed to be the favorite for governor.

Houston county does not instruct.

Gaudalope county instructs for Throckmorton and Sayers.

Lee county instructs for King for treasurer. Hubbard is said to be the favorite for governor. The delegation to the congressional convention are instructed for Shepard.

Smith county. One or two precinct meetings were held and Hubbard instructed for.

Marion county is reported to be principally in favor of Throckmorton.

Calhoun county instructs for a full State ticket. Hubbard and Sayers are the choice.

Limestone county. Precinct meetings were held but no preference expressed for State officers.

Victoria county. Precinct meetings were held and Hubbard and Schleicher endorsed.

Colorado county. A precinct meeting was held at Columbus, and instructions given for McCormick for attorney general.

Harrison county does not instruct her delegation.

A FINE looking cuss sailing under the name of L. Morganthau put in an appearance at Houston, claiming to have come from Frisco. He, by his winning manners and plausible tales, soon ingratiated himself in good society. He got acquainted with a representative of the house of LeGeir & Co., of Galveston, and collecting \$500 from various parties, shook the mud of Houston from his patent leather gaiters and eloped. He was a blond and a great favorite with ladies; in fact, he was a regular lady-killer. The Houstonians have not confidence in the young man, and some of them wickedly say he is a dead beat.

Is the Rothschild case, at Marshall, the motion for continuance has been granted and the case goes over for six months. Had Rothschild been a poor man, the probability is that he would have been hanged and forgotten long ago.

The County Convention for this county met at the Court-house, at 11 o'clock, Saturday morning. The attendance was very full. All sections of the county were admirably represented. After appointing committees on credentials, an adjournment was had until 2 o'clock.

The Hempstead Courier has been presented with some fine apples raised in town, and as they fully demonstrate the fact that apples can be raised in Southern Texas.

Comanche county was visited by a severe hailstorm on the 7th inst. Crops were totally destroyed in the course of the storm; fortunately it was not very wide. The losers will be able to replant.

A man named Baker was arrested at Dallas by the police. When the officers approached him he shot himself three times, twice in the head. Should he recover he will be entirely blind. Baker had been in the habit of unmercifully whipping his wife.

James Farmer, a Texas Veteran, and one of the San Jacinto heroes, died at his home near Hazle Dell, Comanche county, on the 6th inst. He was a good and valuable citizen and was esteemed and respected by all who knew him.

Bell county has again been the scene of another murder. On the 13th inst, the house of one A. J. Lewis, on Elmo creek, was visited by unknown parties and Bob Hardee and Edward Cook killed. The murderers are supposed to have been horse thieves.

The Fort Worth Standard says all arrangements having been completed for starting a daily mail line from Fort Worth to Fort Yuma, the occasion was celebrated by a banquet. The line is 1560 miles long and every day a stage will start on time from each end of the line. It is the longest stage line in the world.

There are four "first-class" gambling houses in Dallas. How many second, third, fourth and sixth class places there are, the devil only knows. So says the Call. As the devil is a gentleman who attends strictly to his own business, it is not likely he will soon tell how many of his favorite establishments are in full blast in Dallas, which place is popularly supposed to be his headquarters in Texas.
